Recommendations & suggestion:

The below given points are the recommendations to improve the website (Bewakoooff)

- The website lags a lot while using the website
- Sometimes while clicking the signup and log in button after entering The details the user needs to click it twice and even thrice
- Need to change the search bar
- Need to add the visibility button on the password block in both login and sign in
- Need to remove the spinner control on both sign in and checkout form
- Need to add products details
- There are lot of lagging issue while both using and testing the website in both manual and automation testing also
- The size button on the products are not clickable
